

# INDOOR ROUNDS (Metric and Imperial)

(Rounds highlighted green are suitable for club shoots)

## Sighters:

- Metric rounds - 45 minutes practice max = approx. 2 or 3 ends of unlimited number of arrows
- Imperial rounds – 2 ends of 3 arrows only

**10 zone scoring** - The two inner gold rings both count as 10 for all bow types except for compound. Only the inner X ring counts as a 10 for a compound archer. Scoresheets should record as 10 only – no X recorded for indoor rounds.

Inner 10 (All bows)	Outer 10 Compound 9	9	8	7	6	5	4	3	2	1
------------------------	------------------------	---	---	---	---	---	---	---	---	---

Note Vegas\* and Worcester\*\* rounds use special faces (see below) and are scored differently (speak to Chloë/Paula or any experienced member if unsure). Compounds usually shoot on 3 spot faces (although this is an option for recurve too).
